Specific objectives

Improving of **public services** provided by municipalities as e-services in e-Card

Increase the **number** of e-Card users or citizens using modernized services

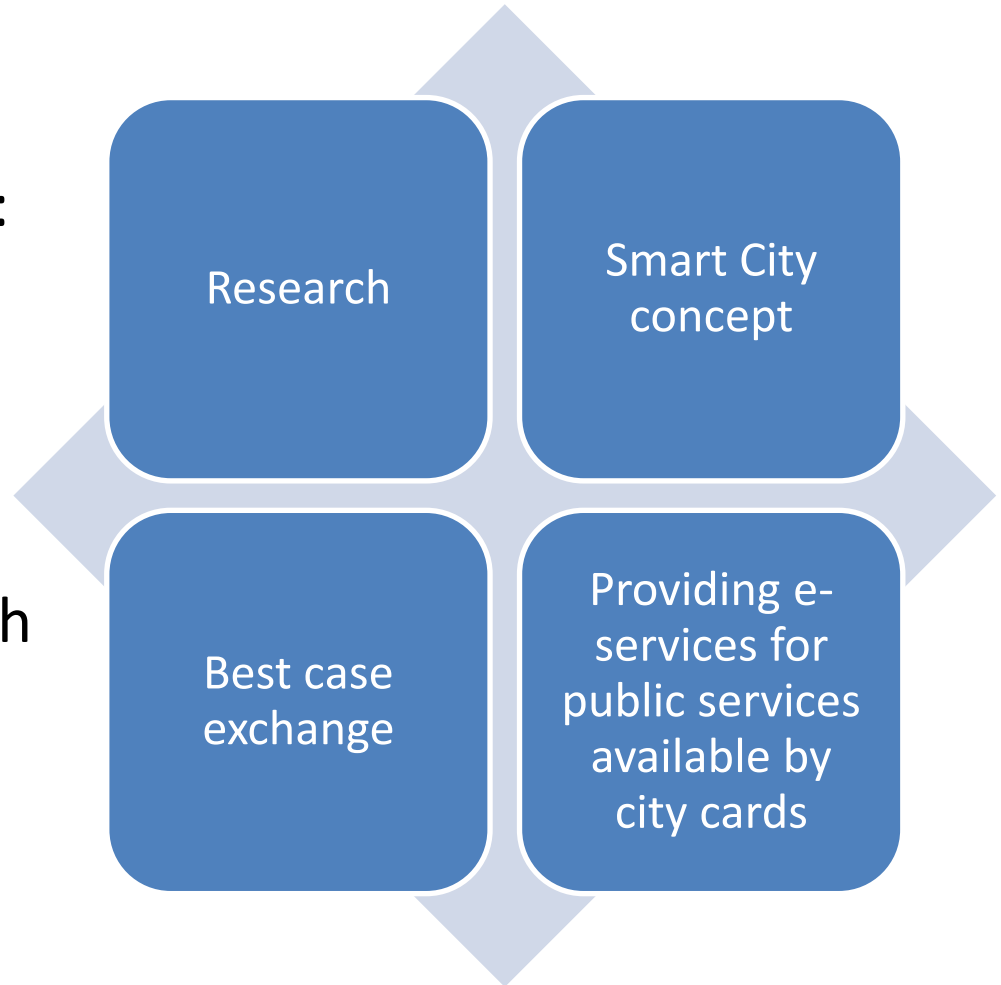

Improvement of **cross border** cooperation

Main outputs

During cross border cooperation of 2 municipalities there will be:

- improved public services linked with allowances and discounts offered by municipality and
- so access to services is linked to citizen Card with improved and new e-modules

Main expected project results

- **Improved public services** linked with allowances and discounts offered by municipality
- access to services is linked to **CityCard** with improved and new e-modules
- In the project **3 modules** are planned that will develop services available by cards;
- as result **citizens are using cards** of cities more, thus relieving municipal institutions and increasing their living quality;
- **cross border cooperation** between municipalities, their specialists and citizens increased

Target groups

- Local authorities
- infrastructure and (public) service providers:
 - 2 x 5, e.g., JSC “Busturas”, ambulances, sports centers, markets, municipality operational information centers, IT departments, accountancy, educational board / department of education, social affairs / social support, libraries from both cities
- interest groups including NGOs:
 - At least 2 x 10
- General Public
