

# Jelgava in figures 2015

*Dear readers of „Jelgava in figures”!*

Smart city is a city, which is constantly developing. Jelgava’s long-term development strategy is focused at creating a favourable development of economic and social environment, improvement of the quality of life, therefore all investments are in the inhabitants – for the last six years Jelgava has the best rate of natural increase between the big cities. Attractive environment, jobs, kindergartens, schools, social welfare programmes, interest education for all ages – we are interested in balanced city development. In order to carry it all out high intellectual potential is necessary, therefore most of the attention is paid to education, starting from kindergarten up to seniors.

How comfortable people will feel in the city largely depends on entrepreneurs. We are proud of our companies that are mentioned as the biggest tax payers in the country. And also we are proud of companies that support educational, sports and cultural activities in the city. These companies are Ltd.”AKG Termotehnika Letland”, Ltd.”Evopipes”, Ltd.”Igate”. At the moment the largest companies in terms of turnover are linked to the wood industry, transport logistic and road construction, however the largest in manufacturing are companies in the area of machinery, milk processing and production, processing of plastic, printing matter.

In global competition Jelgava’s strength is the ability to be ahead of time – the ability to implement projects, which are aimed to the future. Not only geographical location and efficient investment in infrastructure has allowed Jelgava to take sixth place in the category of European Smart cities. It is the assessment of Jelgava’s ability to capture new things. With the help of information technology we offer the citizens electronic cards for public transport and social services, completely new solution for traffic organisation, environmental security, street lighting, traffic flow regulation and measurement, processing and analysis of information. Full-time monitoring of infrastructure provides an opportunity to react quickly and react in situations of emergency. Video surveillance system has also allowed to improve safety in the city environment from both pedestrian and transport position. We live in the age of information and knowledge, which requires the ability to adapt, change, see prospective opportunities and use them daily.

I welcome you to read more about the development of Jelgava in the latest edition of „Jelgava in figures”!

Andris Rāviņš  
Jelgava City Council Chairman

## Briefly about Jelgava

---

Jelgava is the fourth largest city in Latvia by population and fifth – by territory.

The total area of Jelgava is 60,3 km<sup>2</sup>, of which:

- water covers 2,72 km<sup>2</sup>
- parks cover 1,62 km<sup>2</sup>
- forests cover 12,64 km<sup>2</sup>

Distances:

Jelgava - Riga	42 km
Jelgava - Vilnius	295 km
Jelgava - Tallinn	350 km
Jelgava - Moscow	1053 km
Jelgava - Stockholm	482 km
Jelgava - Berlin	1221 km
Jelgava - Vienna	1403 km

Jelgava is the only city in Latvia that contains the country's small coat of arms within its coat of arms. The city received the coat of arms at the same time as it received city rights, in 1573. The first coat of arms depicted a crowned stag head on a raspberry red field; the current coat of arms contains an elk head on a crimson field.

On October 28<sup>th</sup>, 1938 the city's flag was approved. The flag is divided into two parts of equal breadth: the upper half is dark blue, the lower – red; in the centre of the flag is the Jelgava city coat of arms.

In 2012 Jelgava City logo was approved. The logo is made up of a contour of an elk head and the word Jelgava. The large antlers symbolize the rich historical experience and value of the city.

Jelgava also has a motto – „Jelgava – city for development”. The most important value of Jelgava is the people who live, get educated and work here to develop themselves and their city. Jelgava offers opportunities to express themselves to everyone – from children to seniors.

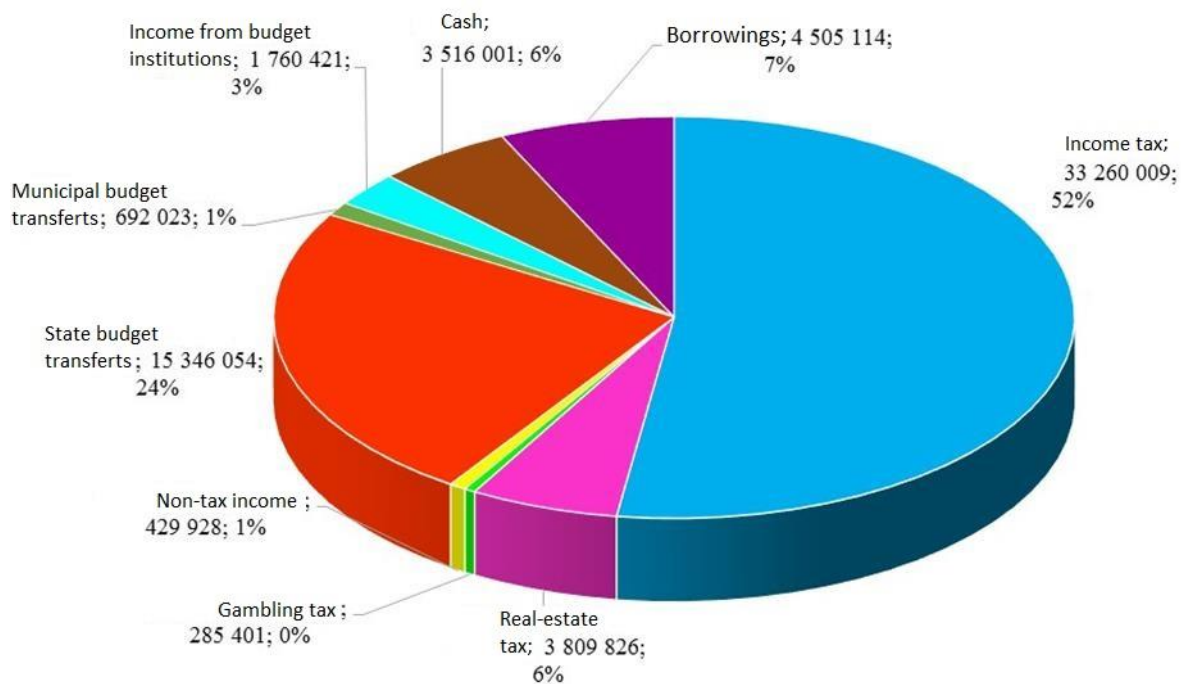

We, inhabitants of Jelgava, are growing together with our city, by giving it our special and invaluable contribution. The joint work of inhabitants is the foundation for a better future and beautiful today. With hard work inhabitants of Jelgava have achieved that exactly development is what best describes Jelgava and its people.

### **750th anniversary of Jelgava city**

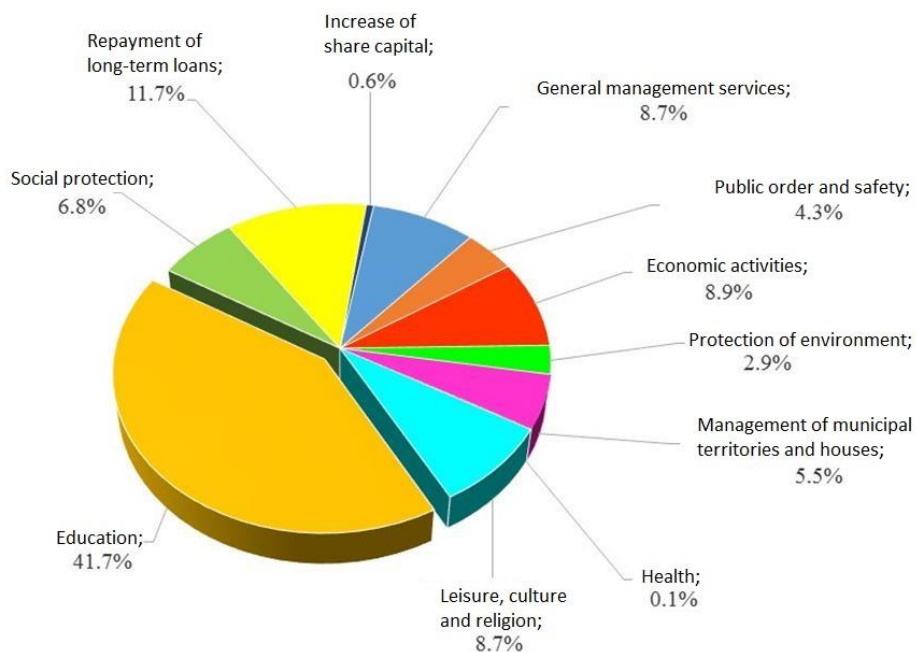

750 years ago – in the year 1265 - the construction of the castle on the island between the rivers Driksa and Lielupe is considered to be the year when Jelgava (Mitau) was founded. Since then, the city has experienced both prosperity and irreversible devastation of war. The capital of Courland Duchy, the capital of Latvia, the centre of historical and economical events in Zemgale – here is the potential for education, science and innovations.

[www.parnu.ee](http://www.parnu.ee)

### **Siauliai (Lithuania)**

Cooperation agreement was signed in 1960. Central areas of collaboration – education, culture, sports, social welfare and addiction prevention. Area 69,5 km<sup>2</sup>, population of about 130 000.

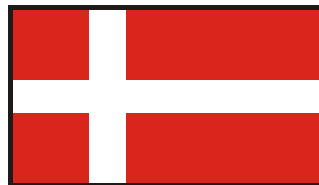

[www.siauliai.lt](http://www.siauliai.lt)

### **Vejle (Denmark)**

The cooperation agreement was signed in 1992. Collaboration occurs within the realms of education and experience exchange of municipality workers. The city is located in the continental part of Denmark, the population is approx. 52 500.

[www.vejle.dk](http://www.vejle.dk)

### **Shin-Ying (Taiwan)**

The cooperation agreement was signed in 2000. It foresees cooperation in the areas of art and culture. The city is located in the northern part of Tainan County and is the administrative centre of the province. Area – 38.54 km<sup>3</sup>, population – approx. 75 000.

### **Alcamo (Italy)**

The cooperation agreement was signed in 2002. It predicts collaboration in supporting the realms of culture, sports and social welfare. It is planned to develop trade commerce and to encourage entrepreneurship. The Rotari clubs of Jelgava and Alcamo are actively cooperating.

[www.alcamo.it](http://www.alcamo.it)

### **Baranovichi (Belarus)**

The cooperation agreement was signed in 2003. The central areas of collaboration – education, culture, sports, prevention of addiction. Stimulating cooperation within the realm of economics is also planned.

[www.baranovichy.by](http://www.baranovichy.by)

### **Magadan (Russia)**

The cooperation agreement was signed in 2006, foreseeing collaboration in the realms of culture, education, economics, sports, tourism, science and social politics. Besides, the city contains a Latvian Diaspora (Latvians or their descendants were sent there in the years of the USSR occupation) that would love to maintain strong contacts with Latvia.

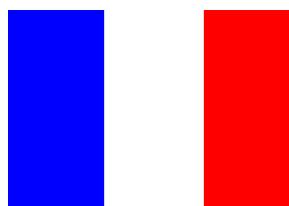

[www.magadan.ru](http://www.magadan.ru)

### **Rueil-Malmaison (France)**

The partnership began in France during the festival “Surprising Latvia” and was strengthened during the “Spring of France” festival in Latvia. The cooperation agreement was signed in 2007, predicting collaboration in the realms of economics, entrepreneurship, education, science and culture. There is collaboration between Jelgava State Gymnasium and Richelieu Lyceum.

[www.mairie-rueilmalmaison.fr](http://www.mairie-rueilmalmaison.fr)

### **Nova Odessa (Brazil)**

The protocol of intent was signed in 2007, predicting collaboration in many aspects, including providing support for organizations, companies, state institutions and non-governmental organizations, assisting the establishment of mutual relations and promoting the understanding of the cultures and history of both countries. Furthermore, Nova Odessa contains the largest community of Latvians in Brazil.

[www.novaodessa.sp.gov.br](http://www.novaodessa.sp.gov.br)

### **Hällefors (Sweden)**

The cooperation agreement was signed in 2004. Collaboration is being realized in the forming of the city environment and the education of landscape architects. A partnership with the Faculty of Food Technology from the Latvia University of Agriculture has been established in the realm of culinary arts. Cooperation in the realm of culture and social affairs is predicted in the future.

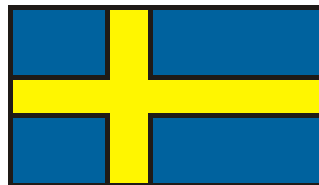

[www.hellefors.se](http://www.hellefors.se)

### **Nacka (Sweden)**

A suburb of Stockholm with a population of approx. 91 600. Originally a partnership was established within the boundaries of EU-financed projects. Currently a close collaboration has formed and there is exchange of experience in the areas of municipality administration, environment, education, culture, sports and prevention of addiction. Collaboration with youth (for example, the students of Spidola Gymnasium) and civic organizations ("Parents for Jelgava") has also begun.

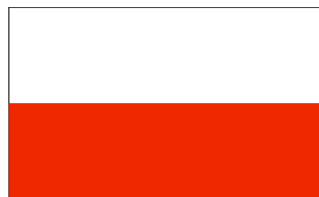

[www.nacka.se](http://www.nacka.se)

### **Bialystok (Poland)**

Bialystok is the largest and one of the most historically rich cities in north-east Poland. Area – 102 km<sup>2</sup>, population – approx. 294 400. An active collaboration has been established in the exchange of experience for the municipalities as well as the realm of culture. The partnership is strengthened by the Jelgava chapter of the Association of Poles in Latvia.

[www.bialystok.pl](http://www.bialystok.pl)

### **Ivanofrankovska (Ukraina)**

The cooperation agreement was signed in 2007 in order to form a partnership in the areas of culture, education, entrepreneurship, municipal economy and social welfare, and to realize joint EU project.
